He had presented a petition against a trailer park signed by seventeen residents in the area. He expressed concern about the increase in traffic on the narrow streets and the drop in their property value. Jim stated that they would like to see a roll call vote on the building permit.

Janice Slate asked the council to please not vote for the building permit.

David Staniec stated that he is concerned about the traffic on the narrow streets with the young children playing in the neighborhood.

Jesse Matlock is concerned that Center Street is a main street off the highway and doesn’t want the street blocked in case an ambulance would need to get through.

Larry Wheeler stated that he was not putting in the RV park to upset anyone and if he would have known it was so upsetting then he would have reconsidered. He restated that it will be a RV Park not a trailer park and it would be utilized by those coming to the lake.

Jim Slate presented the council with pictures of a large pile of fireworks debris at the John Cunningham RV Court and stated that there is no control over the type of folks in these parks. Jim stated that they were up late shooting off loud fireworks over the weekend.

There was a brief discussion on property values. Bruce Berkley said that the council has no control over property values. That is up to the county appraiser.

Jesse Matlock is concerned that the Kansas City guys who poured the cement want to purchase the lot and were only able to get a building permit through Larry Wheeler since they live out of town.

Clay Henningsen mentioned that initially he was concerned about two hunting lodges next to his home. Clay said that he hasn’t had any problems with any of the folks at the lodges. He said he feels the property owners need to be responsible for their tenants.
