Also in attendance: Jeff Holling, Terry Collins, Tracy Smith, Jeff Shelton, Attorney Katie Schroeder, Eldon Behymer, and Jerri Senger.

Minutes & Claims

The claims on hand for the month of December amounting to $43,199.63 plus the outstanding Mid-Kansas Electric, State municipal court fees and attorney bills were reviewed. Sheila made a motion to approve the claims. Ken seconded the motion and the motion carried with five ayes.

Tracy Smith

Tracy Smith asked the council for an extension to his property clean-up deadline. He received the code violation letter last week and stated that he needs more than ten days to clean up his property. After some discussion the council gave him until the next meeting, February 4, to get his property cleaned up. Tracy also asked for approval of his building permit application, stating he wants to put a fence across his driveway. He mentioned part of his driveway is on the neighbor’s property, but he contacted the neighbor and will have written permission for a fence this weekend. Tracy also asked that “slow down, children at play” signs be put up around his corner. He said folks tear around the corner and there are several young children that live and play in the neighborhood. Tracy said he would even pay for the signs himself, it is that important to him. The council will look into requirements and prices for signs, and tabled the decision until the February meeting.

CVA

Jeff Holling addressed the council; Central Valley Ag is proposing to build two new grain bins west of the existing bins and moving the scale north of its current location. The new bins will be smaller than the last ones built and they need the bins up by September 1st for fall harvest. Jeff said the new bins should not add to the truck traffic on the city streets. There was some discussion on the maintenance of what is called Railroad Street, which is in fact located on railroad right-of-way and is leased by CVA. It was asked why CVA doesn’t maintain that “street”. Since the scale is proposed to be relocated onto Railroad Street, it was mentioned there will still be one 12-foot lane available to be driven on. Barry stated that he and others drive large farm machinery on Railroad Street and would need to adjust their route when the scale is relocated. It was asked if there are potential future plans to build any more bins. Jeff said yes, two smaller bins. He said with future bins it should help eliminate weekend and after 8-5 traffic on the streets. The council asked what CVA can do to help the city maintain the streets that take such a beating from the high volume of trucks. Jeff said he has his employees immediately pick up any grain that is spilled on the streets and he is willing to pay the city to sweep the streets to help cut down on the dust. There was mention of the council attending the October 2018 Mitchell County Commissioners meeting, asking for some of the tax money the county receives from the flats east of town. The Commissioners are open to helping out with a possible cost share project on Kansas Street, however at that time they did not want to adjust any tax money received by the City from the County. Jeff said that CVA is a good company and they will not leave the city hanging on maintaining the
streets, but he asked if the council would approve the building permit so he could begin the construction process. He mentioned possibly going to a County Commissioner meeting with the City and will definitely call CVA’s CEO to see what help they can be to the city for the streets. Jeff will keep in contact with the Mayor. Larry made a motion to approve building permit #19-2 to build two new bins and move the scale. Ken seconded the motion and the vote carried with five ayes.
